OBJECTIVE

"To obtain a challenging position as a Software Developer where I can apply my knowledge of Java, SQL, and full-stack development while continuously learning and contributing to the organization's growth."

SKILLS

Programming Languages: HTML, CSS, JavaScript , Java , JSP , Servlet ,MySQL

Database: MySQL

Tools & Platforms: Git ,GitHub,VS Code,Eclipse,Android Studio

Java Full Stack Development: Java, Spring Boot, JDBC, Servlets, JSP, MySQL, REST APIs, HTML, CSS, JavaScript, Responsive Web Design

PROJECT

AI Mock Interview System

Developed a web-based application that helps students practice interview questions using Artificial Intelligence

Features:

- Students can select interview topics.
- System asks technical and aptitude questions.
- Users can practice answering questions.
- AI provides feedback and suggestions.
- Helps improve communication and technical knowledge.

Technologies Used: Java, JSP, Servlets, HTML, CSS, JavaScript, MySQL, Apache Tomcat

- **VISTRAN – Need-Based Teacher Training Platform (Hackathon Project)**

- Developed a role-based teacher training platform for DIET & SCERT with separate modules for Teachers, Trainers, and Administrators.
- Built subject-wise learning dashboards, a rule-based AI chatbot, and a feedback system for personalized training.
- Implemented backend using Java Servlets, MySQL, and deployed on Apache Tomcat using a modular architecture.

Technologies Used: Java, JSP, Servlets, HTML, CSS, JavaScript, MySQL, Apache Tomcat

EDUCATION

- **Bachelor of Computer Applications (BCA) –** S.M. Joshi College, Savitribai Phule Pune University | CGPA:8.9(tillSYBCA) ***2023 – 2026***
- **Higher Secondary Certificate (HSC) – Science** Sri Ram junior college| Percentage:74.83% ***2022-2023***
- **Secondary school certificate (SSC):** shriram vidyalaya kada| Percentage: 91.20% ***2020-2021***
