SUMMARY

BCA graduate who builds web applications with Java, Spring Boot and MySQL. I have worked on REST APIs, login and role-based access using JWT, and database design with Spring Data JPA and Hibernate. Looking for a Java Full Stack Developer role where I can keep learning and contribute to real projects.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Core Java: OOP, Collections, Exception Handling, Multithreading, Java 8

Backend: Spring Boot, Spring MVC, Servlets, JDBC, REST APIs, Spring Security (JWT)

Frontend: JSP, Thymeleaf, HTML5, CSS3, Bootstrap, JavaScript

Database & ORM: MySQL, Joins, Hibernate, Spring Data JPA

Tools: Git/GitHub, Maven, Postman, Tomcat, Docker, Eclipse, IntelliJ, VS Code

EXPERIENCE

Java Full Stack Development Intern, Veracity Software Pvt Ltd *May 2026 – Oct 2026*

- Worked in a team on a Hospital Management System and was responsible for the Appointment and Discharge modules.
- Wrote REST APIs for these modules using the Controller, Service and Repository layers.
- Tested all APIs in Postman and kept the requests organized so teammates could reuse them.
- Connected the frontend pages to the APIs using JavaScript, and used Git to share code with the team.

PROJECTS

Farming Supply Chain Application

Tech: *Spring Boot, Spring Data JPA, Hibernate, Spring Security (JWT), MySQL, Maven, Postman*

- Built a web app where Admins, Farmers and Consumers use one platform to list, order and manage farm products.
- Designed a MySQL database with 6 tables (Users, Farmers, Consumers, Products, Orders, Order Items) and mapped them using JPA and Hibernate.
- Added registration and login with Spring Security and JWT, with different access for each role.
- Added global exception handling, input validation and pagination so APIs return clear errors and do not send all records at once.

Online Mock Interview Platform

Tech: *Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, HTML, CSS, JavaScript, Postman, Git*

- Built a web platform where candidates can practice mock interviews online and check their results.
- Added user registration and login, with separate access for Admin and Candidate.
- Created REST APIs for managing interview questions, taking interviews and saving results, using the Controller, Service and Repository layers.
- Designed the MySQL database and mapped it using JPA and Hibernate; tested all APIs in Postman.

EDUCATION

Bachelor of Computer Applications (Science), S.M. Joshi College, Hadapsar, SPPU, Pune *2023 – 2026*

CGPA: 8.0

HSC, Sri Ram Junior College | 74.83% *2023*

SSC, Shriram Vidyalaya, Kada | 91.20% *2021*

CERTIFICATION

Java Full Stack Development Certification, SPTI – Core Java, Collections, JDBC, Servlets, JSP, Spring Boot, Hibernate/JPA, REST APIs, MySQL, HTML, CSS, JavaScript.
